

A Thames Valley Ancient Egypt Society Public Lecture

Ancient Land

The waterscapes of Thebes

by Dr Angus Graham

The talk will look at the results of geophysics and geoarchaeological work at Karnak over the last 10 years and present the most recent results of the EES Theban Harbours and Waterscapes Survey work. The project aims to understand the extent the ancient Egyptians manipulated their landscape for religious and practical purposes.

Saturday April 27th 2013

1.30 for 2.00pm

Free to members

Visitors: £3.00 (donation)

Earley Crescent Centre

Warbler Drive, Lower Earley
